B2

4. The lure of claim 1, wherein said urine is taken exclusively from a single stall used only by said two animals.

5. The lure of claim 4, wherein said two animals are males in rut.

a3

SUB
B3

9. A method of making a lure for an identified species of animal using a urine-gathering stall, said method consisting essentially of the steps of:

- a) limiting use of said urine-gathering stall to only two animals;
- b) gathering urine from said urine-gathering stall; and,
- c) limiting said lure to only urine gathered from said urine-gathering

stall.

a4

11. The method of claim 9, wherein the step of gathering urine, includes leading a first animal out of the stall immediately after urination while a second animal is lead into the stall so that said animals are within sight of each other.
